INTRODUCTION

The Office of Planning, Budget, and Institutional Research, together with the Users Advisory Committee, presents the thirteenth publication of the Oklahoma State University Student Profile. Our objective in producing this document is to provide information on present, as well as previous, Oklahoma State University student enrollment. We attempt to depict trend data in a manner which is useful in planning for the challenges which lie ahead. This report is intended as an internal reference to help the University community better understand the University's most important resource--its students.

Many thanks should go to the Users Advisory Committee for their support and advice in preparing this annual report. While the publication cannot contain all available information, it does present a comprehensive profile of most student information which has been requested by Oklahoma State University administrators.

This publication has become a very useful resource for student information to many departments and individuals at OSU. We encourage users of this direct their comments, questions, and suggestions about its contents to the Office of Planning, Budget, and Institutional Research.

Faint, illegible text, possibly bleed-through from the reverse side of the page. The text is arranged in several paragraphs across the page.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new freshman in the fall semester 1982 and who was also enrolled as an undergraduate in the fall semester 1983 is reflected in the 74.1 continued enrollment figure above. Beginning in 1986, first-time nontraditional students were classified as new freshmen instead of special students. Students admitted to the College of Veterinary Medicine after their third year are counted as graduated.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester.
Example: A student who was enrolled as a Freshman in Agriculture in the fall semester 1990 and who was also enrolled as an undergraduate in the fall semester of 1991 is reflected in the 74.4% retention figure above. Cont. = Continued, Grad = Graduated.

Note: A non-returning student is defined as a student who was enrolled at OSU for one fall semester but who did not graduate and who did not return to OSU for the following fall semester. The data presented above shows non-returning students as a percent of the total enrollment by class and ethnic group for the fall semesters 1990, 1991 and 1992. The percent of the previous fall semester class which graduated (% Grad) is also presented.

For example, of the total (100%) Native American students enrolled at OSU as seniors in the fall semester 1990, 25.7% were not enrolled at OSU in the fall semester 1991 nor had they graduated from OSU. These students are shown as "% Non-Returning." 43.4% of the Native American senior students enrolled in the fall semester 1990 had gone on to graduate prior to the fall semester 1991.

STUDENT RETURN RATE BY CLASSIFICATION

Senior Class	29.5	27.6	29.4	31.5	30.4	33.2	30.3

Note: Return rate is defined as an enrolled fall semester student returning for the following fall semester as an undergraduate student.

Return rate is computed by comparing the previous fall semester class to the current fall semester class by matching the student identification number. If a student's identification number matches, he/she is a continuing student. For example, of the 4,185 freshmen for Fall 1987, 2,715 returned the following fall semester giving a return rate of 64.9.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester.
Example: A student which is enrolled as a new transfer in the Fall semester 1982 and who was also enrolled as an undergraduate in the Fall semester 1983 is reflected in the 66.3 continued enrollment figure above. Students admitted to the College of Veterinary Medicine are counted as graduated.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is crucial for ensuring the integrity of the financial data and for facilitating audits.

2. The second part of the document outlines the various methods used to collect and analyze data. It includes a detailed description of the sampling techniques employed and the statistical tests used to evaluate the results.

3. The third part of the document presents the findings of the study. It shows that there is a significant correlation between the variables being studied, and that the results are consistent with the theoretical model proposed.

4. The fourth part of the document discusses the implications of the findings. It suggests that the results have important implications for the field of research and for the development of policy.

5. The fifth part of the document concludes the study. It summarizes the main points and offers some final thoughts on the future of the research.

6. The sixth part of the document provides a list of references. It includes all the sources cited in the text, and is arranged in alphabetical order.

7. The seventh part of the document is an appendix. It contains additional information that is not included in the main text, but which is useful for understanding the study.

8. The eighth part of the document is a glossary. It defines the key terms used in the study, and provides a clear and concise explanation of their meaning.

9. The ninth part of the document is a list of figures. It includes all the charts and graphs used in the study, and provides a brief description of each one.

10. The tenth part of the document is a list of tables. It includes all the tables used in the study, and provides a brief description of each one.

OSU FALL SEMESTER HEAD COUNT
ENROLLMENT PROJECTIONS

Changing admission policies for all Oklahoma public higher education institutions as established by the Oklahoma State Regents for Higher Education have made multiyear forecasts of enrollment extremely difficult. Because of requests for multiyear projections it was decided to resume publishing long range projections, but we expect a larger error rate than in past years.

The sources of new students for Oklahoma State University are new freshmen, new graduate students, transfer students, and readmitted students. In the past, the new student category was the best source for increased enrollment. This fall OSU had 2,188 new freshmen, 1,510 undergraduate transfers, and 588 readmit undergraduate students.

The new freshman enrollment for Fall 1993 at Oklahoma State University is composed of 84.1% Oklahoma residents and 15.9% non-Oklahoma residents (including international students). Historically, the percentage of new freshmen who are Oklahoma residents has been above 87% with year-to-year fluctuations of less than 1%. This year, as was the case last year, the number of out-of-state new freshmen exceeded expectations and changed the percentage mix. However, the percentage of Oklahoma high school graduates who chose to enroll at OSU rose for the first time in several years. Consequently, forecasts of the number of Oklahoma high school graduates are still the most important factor for projecting OSU new freshman enrollment.

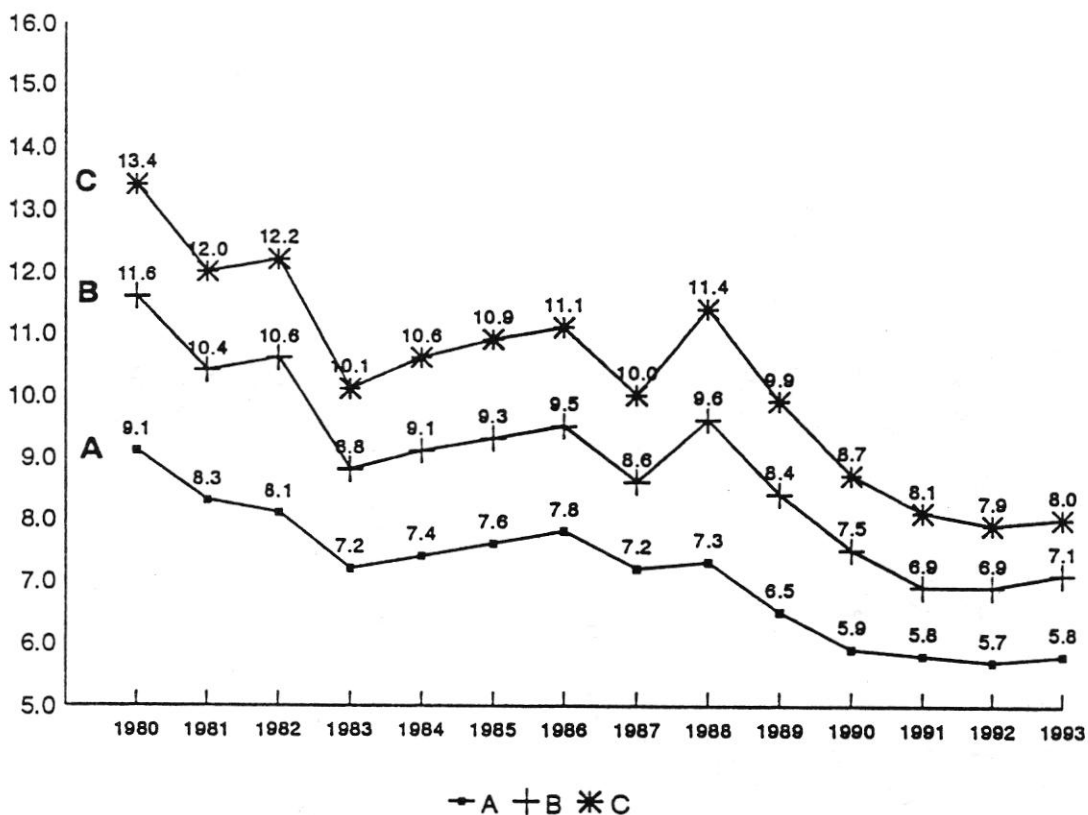

The forecast of Oklahoma high school graduates used in this section is based upon information received from the Oklahoma State Department of Education. It assumes that demographic trends such as immigration into and emigration out of the state will remain relatively constant.

Several factors complicate enrollment projections at OSU. Some of these factors depend on policy decisions originating with the Oklahoma State Regents for Higher Education and some depend on recruitment policies set by OSU administration. Increased admission standards reduce the "pool" of potential students eligible to attend OSU. It remains unclear whether students now eligible for admission will attend OSU in the same proportion as those formerly eligible, or if the ratio of actual enrollees to eligible students will rise or decline. Enrollment is also strongly affected by the number of scholarships

offered and by the effort put into high school recruiting, factors which have been emphasized this past year.

The impact of changing admissions, retention, scholarship, and recruiting policies will require the passage of some time in order for their effect to be reflected in the data used as a basis for enrollment projections. As the impact of these policies becomes clear, a new enrollment forecasting model will be developed.

RATIO of OSU SHARE of BEGINNING FRESHMEN Fall Semesters 1980 through 1993

- A. The ratio of OSU new resident freshmen to Oklahoma high school Spring graduates, expressed as a percent. *
- B. The ratio of OSU new freshmen to new freshmen at Oklahoma higher educational institutions, expressed as a percent. **

GLOSSARY

Age

A student's age is computed by subtracting year of birth from 93. Therefore, students born in January 1970 and December 1970 will both be reported as age 22 (92-70).

Classification

Classification describes the student level and/or type and includes freshman, sophomore, junior, senior, special undergraduate, special graduate, master, and doctorate.

College

The University is divided into six undergraduate colleges: Agricultural Sciences & Natural Resources (ASNR); Arts and Sciences (AS); Business Administration (CBA); Education (ED); Engineering, Architecture, and Technology (CEAT); and Human Environmental Sciences (HES). Data for CEAT are sometimes divided into two data sets--one for Engineering & Architecture (EN), and the second for the Division of Technology (TECH).

In addition to these six undergraduate colleges, students may enroll in the University Academic Services, the Graduate College, and the College of Veterinary Medicine. In this report, students enrolled in the Graduate College are usually distributed for reporting purposes to the respective undergraduate college which administers their major coursework.

Educational TV Students

An Educational TV student is a student who is taking OSU coursework via the Oklahoma State Regents for Higher Education's Talk-Back television system. The student may or may not also be enrolled in courses at the University Center at Tulsa. A student who is enrolled in courses at OSU and who is also enrolled in an Educational TV course is counted as an OSU student (see Student Location).

Race Codes and Definitions

For purposes of reporting OSU enrollment by race, the total enrollment at OSU excluding non-resident aliens (Non-U.S. citizens) is divided into the following categories:

White: All persons having origins in any of the original peoples of Europe (except Spain and Portugal), North Africa (above the Sahara), or the Middle East. This category would include, for instance: Italy, France, the British Isles, Scandinavia, Germany, Russia, Romania, Greece, Turkey, Morocco, Algeria, Libya, Egypt, Iraq, Israel, Saudi Arabia and Iran.

Black: All persons having origins in any of the original peoples of Africa south of the Sahara.

Native American: All persons having origins in any of the original peoples of North and South America.

Hispanic: All persons having origins in any of the original peoples of Spain and Portugal. This category would generally include, for instance: Chicanos, Mexican-Americans, Mexicans, Central and South Americans, Cubans, Puerto Ricans, Spaniards, and Portuguese.

Asian: All persons having origins in any of the original peoples of the Far East, Southeast Asia, or the Pacific Islands. This category would include, for instance: China, Japan, Korea, Thailand, Vietnam, the Philippines, Samoa, Indonesia, New Zealand, Australia, and the Indian sub-continent which includes all persons from Afghanistan, Nepal, Burma, India, and Pakistan.

In order to present a set of data regarding OSU enrollment which sums to OSU's total enrollment (including non-resident aliens), some tables and figures which present data by race in this report include an additional column or row of data pertaining to the balance of the student body--the non-resident alien population.

Resident Status

A student is categorized as a resident if he or she was a legal resident of the State of Oklahoma at the time of original admission to OSU. If not a legal resident of Oklahoma at the time of admission, the student is a non-resident. If

the student was a legal resident of a country other than the United States at the time of admission, the student is categorized as a non-resident alien.

Retention

Student retention is usually expressed as a percentage figure which is derived by comparing the size of a specific group of students who were enrolled at OSU for a given semester to the size of the same group when they are enrolled for a successive given semester.

A non-returning student is defined as a student who was enrolled at OSU for a given semester and who did not graduate and who did not return to OSU for a successive given semester.

Special Undergraduate/Graduate Student

A special undergraduate student is a non-degree seeking student who has not earned a bachelor's degree from an accredited college or university. A special graduate student is a non-degree seeking student admitted to the graduate college.

Student Location

Beginning with the Fall Semester 1983, every student on the Student Master File is defined by one of the following Student Location Codes:

- 0 Enrolled only in courses on the OSU main campus (OSU)
- 1 Enrolled in courses on the OSU main campus and also taking courses at the University Center at Tulsa (OSU + UCT)
- 2 Enrolled in OSU courses only offered at the University Center at Tulsa (UCT)
- 3 Enrolled in OSU courses only through the Oklahoma State Regents for Higher Education's Talk-Back Television system (EDTV or ETV or Educational TV students)

- 4 Enrolled in OSU courses through Educational TV and also at the University Center at Tulsa (ETV + UCT)
- 5 Enrolled in courses on the OSU main campus and also enrolled in OSU courses through Educational TV (OSU + ETV)
- 6 Enrolled in OSU courses on the main campus, through Educational TV and at University Center at Tulsa (OSU + ETV + UCT)
- 7 Enrolled in OSU courses only offered at University Center at Enid. (UCE)
- 8 Enrolled in OSU courses only offered at the branch campus located in Kyoto, Japan (OSU-Kyoto)

For purposes of reporting data, students are reported as UCT students only if they are enrolled in OSU courses exclusively at the University Center at Tulsa (2 above). Students are reported as Educational TV students if they are enrolled in an Educational TV course but are NOT also enrolled in a course on the OSU main campus (3 and 4 above). If a student is enrolled in a course on the OSU main campus, he or she is reported as a "main campus" student, irrespective of whether that student is also enrolled in an Educational TV course(s) offered at the University Center at Tulsa (0, 1, 5 and 6 above).

Type of Admission

A new student admitted to OSU is classified as a new freshman, a transfer student or a readmission. All other students are classified as returning students. A transfer student is classified as such only for the first semester that he attends OSU; after one semester a transfer student is reclassified as a returning student. Similarly, new freshmen are reclassified as returning students after their first semester at OSU (and are sometimes shown as "other freshmen" when presenting data by classification). A readmission student is a student who has enrolled at OSU in the past but who has not been enrolled at OSU during the previous semester (excluding the summer semester).

Prior to Fall 1986, students admitted as adult specials were classified as transfer students. Beginning in Fall 1986, these students were classified as new freshmen students.
