PERCENT DISTRIBUTION OF OSU MAJORS BY COLLEGE AND LEVEL
OKLAHOMA STATE UNIVERSITY
FALL SEMESTER 2011

Note: This page does not include 349 professional students but includes 1,820 students at OSU-Tulsa.

Graduate students have been distributed to the respective college which administers their major coursework. Interdisciplinary graduate programs that do not have a specific area of specialization are reported in the Graduate College. Special students at the graduate level have not declared a major or have not been admitted to a program.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new freshman in the Fall Semester 2001 and who was also enrolled as an undergraduate in the Fall Semester 2002 is reflected in the 80.1% continued enrollment figure above. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the Center for Veterinary Health Sciences after their third year are also counted as graduated. This table includes Summer 2011 graduates.

Note: The above table may be interpreted in this way: Of the 1,971 students enrolled in the College of Agricultural Sciences and Natural Resources in the Fall Semester 2010, 1,219 (61.8%) were enrolled in the same college in the Fall Semester 2011, 244 students (12.4%) were not enrolled at Oklahoma State University, 401 (20.3%) had graduated, and the remainder transferred to other colleges within OSU. This chart excludes concurrently enrolled high school students, special undergraduate students, and students whose enrollment was cancelled during the Fall 2010 Semester. Students are counted as graduated if they have enrolled in a graduate program at OSU.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new transfer in the Fall Semester 2001 and who was also enrolled as an undergraduate in the Fall Semester 2002 is reflected in the 74.7% continued enrollment figure above. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the Center for Veterinary Health Sciences after their third year are also counted as graduated. This table includes Summer 2011 graduates.

In past years, students who enrolled at OSU from other countries for a "study abroad" experience were included in this table. Since these students are only here for one year they have now been excluded from this table. Therefore, the percentages in this table may differ from tables in previous years.

ENROLLMENT PROJECTIONS

OKLAHOMA STATE UNIVERSITY FALL SEMESTER HEADCOUNT ENROLLMENT AND PROJECTIONS

Enrollment at Oklahoma State University showed a significant increase for the Fall 2011 semester with a headcount of 24,231. This represents an all-time high in the OSU-Stillwater/Tulsa enrollment. This continued increase in OSU enrollment was again buoyed by the recruitment efforts of the Office of Undergraduate Admissions. OSU welcomed 3,896 new freshmen, which constitutes an increase of 342 over Fall 2010 and is our largest freshmen class since 1980. This continues the trend of larger numbers of new freshmen with the Fall 2011 new freshmen class being 27% larger than just 3 years ago. This number of new freshmen contributed to an overall increase in undergraduates of 812.

The projections for future years presented in this section are mathematical models based on past trends in applications, admitted students, and subsequent enrollments, as well as retention rates and forecasts of high school graduates. Forecasts for Oklahoma high school graduates show decreasing numbers over the next four years. Because the OSU freshman class is made up of approximately two-thirds Oklahoma residents, these forecasts are the primary source of projection numbers for freshman enrollment. The forecasts of Oklahoma high school graduates used in this section are based upon information from the Oklahoma State Department of Education and the State Regents for Higher Education. They assume that demographic trends such as immigration into and emigration out of the state will remain relatively constant.

Graduate enrollment at OSU leveled off and decreased by approximately 100 in Fall 2011. However, this still constitutes one of the highest graduate enrollments at OSU, second only to Fall 2010.

In summary, several factors affect enrollment projections at OSU. Some of these factors depend on policy decisions originating with the Oklahoma State Regents for Higher Education and others depend on recruitment policies set by OSU administration. The impact of these policies, as well as changing admissions, enrollment, retention, scholarship, and recruiting practices, all have a role in determining future enrollment at Oklahoma State University. The Office of Institutional Research & Information Management will continue to monitor developments in these areas and assess their impact.

GLOSSARY

Age

A student's age is computed by subtracting year of birth from 2011. Therefore, students born in January 1990 and December 1990 will both be reported as age 21 (2011-1990).

Classification

Classification describes the student level and/or type and includes freshman, sophomore, junior, senior, special undergraduate, special graduate, master, doctorate, and professional (Doctor of Veterinary Medicine).

College

The University is divided into seven colleges: Agricultural Sciences & Natural Resources (ASNR); Arts & Sciences (A&S); Spears School of Business (SSB); Education (COE); Engineering, Architecture, & Technology (CEAT); Human Sciences (HS); and Center for Veterinary Health Sciences (CVHS). Data for CEAT are sometimes divided into two data sets—one for Engineering & Architecture (ENGR) and the second for the Division of Technology (TECH).

In addition to these seven colleges, students may enroll in University Academic Services or the Graduate College. In this report, students enrolled in the Graduate College are usually distributed for reporting purposes to the respective college that administers their major coursework.

Ethnicity Codes and Definitions

Due to mandated reporting changes, the Fall 2011 Student Profile contains additional ethnicity categories for Pacific Islanders, Multiracial and Unknown groups; therefore, ethnicities in prior Student Profile books may not be comparable. This change in reporting caused a shift in enrollment counts by ethnicity because students who previously could report only one ethnicity may now report multiple races/ethnicities. Beginning with the Fall 2011 Student Profile, the total enrollment is grouped into the following ethnicity categories:

White: A person having origins in any of the original peoples of Europe, Middle East, or North Africa.

African American: A person having origins in any of the Black racial groups of Africa.

Native American:	A person having origins in any of the original peoples of North and South American (including Central America), and who maintains a tribal affiliation or community attachment.
Hispanic:	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. If a student self-selects Hispanic/Latino race and is not an International, the student will be counted as Hispanic regardless if other ethnicities are selected.
Asian:	A person having origins in any of the original peoples of the Far East, Southeast Asian, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
Pacific Islander:	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
Multiracial:	Students that are not Hispanic or International are considered multiracial if they have self-selected more than one race/ethnicity value. A student identifying with multiple races will only be counted once in the multiracial category.
Unknown:	Any student that does not have a valid race/ethnicity value, is not defined as an international student, or has declined to identify is classified as unknown.
International:	While international is not a collected race/ethnicity value, the Student Profile identifies non-resident aliens by considering Sevis citizenship, permanent resident, and current visa status fields for International student identification.

FTE (Full-Time Equivalency)

Full-time equivalent for undergraduate students is 15 hours. For graduate students, a full-time equivalent is 12 hours. All professional students are one FTE.

New Freshman

A new freshman is a degree-seeking undergraduate student with fewer than seven hours of college credit earned before his/her first semester at OSU. College hours earned through advanced placement or through concurrent high school enrollment are not figured into the seven hour limit. Students who begin as new freshmen during the Summer semester, and continue their enrollment into the Fall semester, are counted as new freshmen for the Fall. This change begins with Fall 2003 counts.

Resident Status

A student is categorized as a resident if he or she was a legal resident of the State of Oklahoma at the time of original admission to OSU. If not a legal resident of Oklahoma at the time of admission, the student is a nonresident. If the student was a legal resident of a country other than the United States at the time of admission, the student is categorized as an international. Refer to Ethnicity Codes and Definitions for more information on what students are considered internationals. In certain situations, a few international students, such as those graduating from Oklahoma high schools, are allowed to receive in-state tuition rates although these students will be reflected in the international numbers in the Student Profile.

Retention

Student retention is usually expressed as a percentage figure which is derived by comparing the size of a specific group of students who were enrolled at OSU for a given semester to the size of the same group when they are enrolled for a successive given semester.

A non-returning student is defined as a student who was enrolled at OSU for a given semester and who did not graduate and who did not return to OSU for a successive given semester. Only regular fall and spring semesters are considered when determining whether a student is enrolled in successive semesters.

Special Undergraduate/Graduate Student

A special undergraduate student is a non-degree-seeking student who has not earned a bachelor's degree from an accredited college or university. A special graduate student is a non-degree-seeking student admitted to the Graduate College.

Type of Admission

A new student admitted to OSU is classified as a new freshman, a transfer student, or a readmission. All other students are classified as returning students, concurrent high school students, or non-degree-seeking students. A transfer student is classified as such only for the first semester that he/she attends OSU; after one semester, a transfer student is reclassified as a returning student. Similarly, new freshmen are reclassified as returning students after their first semester at OSU (and are sometimes shown as "other freshmen" when presenting data by classification). A readmission student is a student who has enrolled at OSU in the past but who has not been enrolled at OSU during the previous semester (excluding the summer semester).
