**OKLAHOMA STATE UNIVERSITY**  
**FALL SEMESTER 2015**

Note: This page does not include 333 professional students but includes 1,255 students at OSU-Tulsa.

Graduate students have been distributed to the respective college which administers their major coursework. Interdisciplinary graduate programs that do not have a specific area of specialization are reported in the Graduate College. Special students at the graduate level have not declared a major or have not been admitted to a program.

*Note:* This table excludes 333 professional students for Fall 2015, but does include OSU-Tulsa figures for all years listed.

The percentage increase or decrease in enrollment between two semesters is shown in the "% Inc / Dec" column. Example:  
There was a 5.7% increase in enrollment of continuing students from Fall 2012 to Fall 2013.

\* New freshmen counts exclude concurrent high school students and non-degree-seeking students for all years listed.

Student Profile books prior to Fall 2006 include new concurrent high school students in the new freshmen counts.

Note: Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new freshman in the Fall Semester 2005 and who was also enrolled as an undergraduate in the Fall Semester 2006 is reflected in the 79.3% continued enrollment figure above. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the Center for Veterinary Health Sciences after their third year are also counted as graduated. This table includes Summer 2015 graduates.

In previous student profiles, all summer degrees were not applied to the proper year when calculating 4, 5 and 6-year graduation rates. These rates have been recalculated to include all summer degrees in appropriate years and will therefore differ from previous student profiles.

*Note:* Retention is defined as the percent of enrolled students of a fall semester who return for the following fall semester. Example: A student who is enrolled as a new transfer in the Fall Semester 2005 and who was also enrolled as an undergraduate in the Fall Semester 2006 is reflected in the 74.3% continued enrollment figure above. Students admitted to the Graduate College at OSU are counted as graduated. Students admitted to the Center for Veterinary Health Sciences after their third year are also counted as graduated. This table includes Summer 2015 graduates.

In previous student profiles, all summer degrees were not applied to the proper year when calculating 4, 5 and 6-year graduation rates. These rates have been recalculated to include all summer degrees in appropriate years and will therefore differ from previous student profiles.

In previous student profiles, all summer degrees were not applied to the proper year when calculating 6-year graduation rates. These rates have been recalculated to include all summer degrees in appropriate years and will therefore differ from previous student profiles.

# ENROLLMENT PROJECTIONS

**OKLAHOMA STATE UNIVERSITY  
FALL SEMESTER HEADCOUNT ENROLLMENT AND PROJECTIONS**

While enrollment at OSU-Stillwater/Tulsa decreased slightly to 25,806, the undergraduate enrollment remains strong and increased by 427 on the Stillwater campus and 225 overall. The combined OSU-Stillwater/Tulsa undergraduate enrollment of 21,046 is an all-time high for OSU and the first time undergraduate enrollment has topped 21,000. Additionally, the OSU-Stillwater enrollment of 24,551 is also an all-time high for the Stillwater campus. OSU welcomed 4,177 new freshmen this fall. This is an increase of 120 over the Fall 2014 new freshmen class and the 3<sup>rd</sup> time in the last 4 years OSU has had a freshmen class over 4,000.

The projections for future years presented in this section are mathematical models based on past trends in applications, admitted students, and subsequent enrollments, as well as retention rates and forecasts of high school graduates. Forecasts for Oklahoma high school graduates show continual increases for the next five years. Because approximately two-thirds of the OSU freshman class are Oklahoma residents, these forecasts are the primary source of projection numbers for freshman enrollment. The forecasts of Oklahoma high school graduates used in this section are based upon information from the Oklahoma State Department of Education and the State Regents for Higher Education, which assumes that demographic trends such as immigration into and emigration out of the state will remain relatively constant.

Graduate enrollment at OSU decreased to 4,427 in Fall 2015. Reasons for this decline include shifting multiple graduate programs to OSU Center for Health Sciences, changes in how waivers are provided for research and teaching assistants and finally a consistent recovery of the economy and job market.

In summary, the enrollment projections at OSU are based on policy decisions originating with the Oklahoma State Regents for Higher Education and recruitment policies set by OSU administration. Changes to these policies, as well as changing admission, enrollment, retention, scholarship, and recruiting practices, all have a role in determining future enrollment at Oklahoma State University. The Office of Institutional Research & Information Management will continue to monitor developments in these areas and assess their impact.

## GLOSSARY

### **Age**

A student's age is computed by subtracting year of birth from 2015. Therefore, students born in January 1994 and December 1994 will both be reported as age 21 (2015-1994).

### **Classification**

Classification describes the student level and/or type and includes freshman, sophomore, junior, senior, special undergraduate, special graduate, master, doctorate, and professional (Doctor of Veterinary Medicine).

### **College**

The University is divided into seven colleges: Agricultural Sciences & Natural Resources (ASNR); Arts & Sciences (A&S); Spears School of Business (SSB); Education (COE); Engineering, Architecture, & Technology (CEAT); Human Sciences (HS); and Center for Veterinary Health Sciences (CVHS). Data for CEAT are sometimes divided into two data sets—one for Engineering & Architecture (ENGR) and the second for the Division of Technology (TECH).

In addition to these seven colleges, students may enroll in University College Advising or the Graduate College. In this report, students enrolled in the Graduate College are usually distributed for reporting purposes to the respective college that administers their major coursework.

### **Ethnicity Codes and Definitions**

Due to mandated reporting changes starting in Fall 2011, the Student Profile contains additional ethnicity categories for Pacific Islanders, multiracial and unknown groups. Therefore, ethnicities in prior Student Profile books may not be comparable. This change in reporting caused a shift in enrollment counts by ethnicity because students who previously could report only one ethnicity may now report multiple races/ethnicities. Beginning with the Fall 2011 Student Profile, the total enrollment is grouped into the following ethnicity categories:

White: A person having origins in any of the original peoples of Europe, Middle East, or North Africa.

African American: A person having origins in any of the Black racial groups of Africa.

Native American: A person having origins in any of the original peoples of North and South America (including Central America), and who maintains a tribal affiliation or community attachment.

Hispanic:	A person of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race. If a student self-selects Hispanic/Latino ethnicity and is not an International, the student will be counted as Hispanic regardless if other races are selected.
Asian:	A person having origins in any of the original peoples of the Far East, Southeast Asian, or the Indian subcontinent including, for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, and Vietnam.
Pacific Islander:	A person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.
Multiracial:	Students that are not Hispanic or International are considered multiracial if they have self-selected more than one race value. A student identifying with multiple races will only be counted once in the multiracial category.
Unknown:	Any student that does not have a valid race/ethnicity value, is not defined as an International student, or has declined to identify is classified as unknown.
International:	While International is not a collected race/ethnicity value, the Student Profile identifies non-resident aliens by considering Sevis citizenship, permanent resident, and current visa status fields for International student identification.

### **FTE (Full-Time Equivalency)**

Full-time equivalent for undergraduate students is 15 hours. For graduate students, a full-time equivalent is 12 hours. All professional students are one FTE.

### **New Freshman**

A new freshman is a degree-seeking undergraduate student with fewer than seven hours of college credit earned before his/her first semester at OSU. College hours earned through advanced placement or through concurrent high school enrollment are not figured into the seven hour limit. Students who begin as new freshmen during the Summer semester, and continue their enrollment into the Fall semester, are counted as new freshmen for the Fall. This change begins with Fall 2003 counts.

### **Resident Status**

A student is categorized as a resident if he or she was a legal resident of the State of Oklahoma at the time of original admission to OSU. If not a legal resident of Oklahoma at the time of admission, the student is a nonresident. If the student was a legal resident of a country other than the United States at the time of admission, the student is categorized as an International. Refer to Ethnicity

Codes and Definitions for more information on which students are considered Internationals. In certain situations, a small number of International students, such as those graduating from Oklahoma high schools, are considered in-state residents although they will still be reflected in the International numbers in the Student Profile.

### **Retention**

Student retention is usually expressed as a percentage figure which is derived by comparing the size of a specific group of students who were enrolled at OSU for a given semester to the size of the same group when they are enrolled for a successive given semester.

A non-returning student is defined as a student who was enrolled at OSU for a given semester and who did not graduate and who did not return to OSU for a successive given semester. Only regular fall semesters are considered when determining whether a student is enrolled in successive semesters.

### **Special Undergraduate/Graduate Student**

A special undergraduate student is a non-degree-seeking student, including high school students concurrently enrolled at OSU, certificate seeking students, and/or exchange students who have not earned a bachelor's degree from an accredited college or university. A special graduate student is defined as a non-degree-seeking student, which may be enrolled in a certificate program, and is admitted to the Graduate College.

### **Type of Admission**

A new student admitted to OSU is classified as a new freshman, a transfer student, or a readmission. All other students are classified as returning students, concurrent high school students, or non-degree-seeking students. A transfer student is classified as such only for the first semester that he/she attends OSU; after one semester, a transfer student is reclassified as a returning student. Similarly, new freshmen are reclassified as returning students after their first semester at OSU (and are sometimes shown as "other freshmen" when presenting data by classification). A readmission student is a student who has enrolled at OSU in the past but who has not been enrolled at OSU during the previous semester (excluding the summer semester).
